PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with **1.4+ years of professional experience** in designing, developing, and maintaining scalable enterprise applications. Currently working at **Cognizant** as a **MEAN Stack Developer** since **Jan 2025**. Skilled in **MongoDB, Express.js, Angular, Node.js, REST APIs and Agile methodologies**. Strong expertise in backend development, responsive UI design, API integration, debugging, and database optimization. Proven ability to deliver high-quality enterprise solutions aligned with business goals.

EDUCATION

Sandip University, Nashik	2022 – 2025
B. Tech - Computer Science and Engineering - CGPA - 7.28	Nashik, Maharashtra
Government Polytechnic, Nashik	2019 - 2022
Diploma - Computer Engineering - CGPA – 8.03	Nashik, Maharashtra

TECHNICAL SKILLS

Programming Languages :	Frontend Technologies :	Backend Technologies :	Databases :
• Java Script (ES6+) • TypeScript • Core JAVA	• Angular • HTML5 • CSS3	• Node.js • Express.js • REST APIs	• MongoDB • MySQL
		Methodologies:	Tools:
		• Agile • Scrum • SDLC	• Git & GitHub • Docker & Docker Hub • Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer	 Cognizant, Pune	Jan 2025 – Present
-----------------------------	--------------------------	---------------------------

Roles & Responsibilities :

- Developed scalable enterprise-grade web applications using Angular, Node.js, Express.js, and MongoDB.
- Designed responsive and reusable UI components using Angular, HTML5, CSS3, and TypeScript.
- Built and maintained scalable REST APIs for enterprise applications and client systems.
- Implemented authentication and authorization using JWT based security mechanism.
- Developed CRUD functionalities and integrated backend APIs with angular frontend modules
- Optimized MongoDB queries and improved application performance for large datasets.
- Integrated third-party APIs and external business services into enterprise applications.
- Performed debugging, issue resolution, and production support activities.
- Participated in Agile ceremonies including sprint planning, standups, and retrospectives.
- Collaborated with QA, UI/UX, and DevOps teams for smooth deployments and delivery cycles.
- Maintained code quality using Git version control and peer code reviews.

PROJECTS

Retail Sales & Inventory Management System | MongoDB, Express.js, Angular, Node.js, REST APIs Aug 2025 – Present

Client: Global Retail Chain (USA)

Description : Developed an enterprise retail management platform to handle sales transactions, inventory tracking, billing, supplier management, and executive dashboards across multiple store locations.

Responsibilities:

- Designed and developed scalable backend APIs for products, billing, sales and inventory modules using Node.js and Express.js.
- Developed Angular dashboards for stock monitoring, sales analytics, and KPI reporting.
- Designed MongoDB collections and optimized queries for high-volume transaction processing.
- Implemented real-time stock updates across multiple warehouses.
- Integrated barcode scanner and invoice generation modules.
- Improved system performance and reporting speed.
- Worked collaboratively in Agile sprints with cross-functional teams.

Secure Banking Application | Java, Spring Boot, MySQL, React.js, JavaScript, Google Authenticator 2024

- Implemented multi-factor authentication (2FA) increasing account security by 99.7%.
- Optimized login processing time by 40% while supporting 1,000+ concurrent users.
- Applied AES-256-GCM encryption for 50,000+ sensitive records.
- Built JWT token rotation system with 15-minute expiration reducing session hijacking risks by 90%.
- Developed responsive frontend using React.js with seamless user authentication flow.

EXTRACURRICULAR

- University Cricket Team Member - Represented university in The Association of Indian Universities (AIU) West Zone Inter-University tournaments.
- Best Bowler Award Winner - State Tournament 2023, Goa.
