PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with **1.4+ years of professional experience** in designing, developing, and maintaining scalable enterprise applications. Currently working at **Cognizant** as a **Full Stack Developer** since **Jan 2025**. Skilled in **C#, ASP.NET, .NET Core, Angular, JavaScript, SQL Server, REST APIs, HTML5, CSS3, Node.js, Git, and Agile methodologies**. Strong expertise in backend development, responsive UI design, API integration, debugging, and database optimization. Proven ability to deliver high-quality solutions aligned with business goals.

EDUCATION

Sandip University, Nashik	2022 – 2025
B. Tech - Computer Science and Engineering - CGPA - 7.28	Nashik, Maharashtra
Government Polytechnic, Nashik	2019 - 2022
Diploma - Computer Engineering - CGPA – 8.03	Nashik, Maharashtra

TECHNICAL SKILLS

Programming Languages :	Frontend Technologies :	Backend Technologies :	Databases :
- CORE JAVA - C# - Java Script (ES6+)	- HTML5 - CSS3 - Angular - TypeScript	- ASP.NET MVC - ASP.NET CORE .NET Framework - REST APIs - Express.js - Node.js	- MySQL - MongoDB
			Tools:
			- Git & GitHub - Docker
			Methodologies:
			- Agile - Scrum - SDLC

PROFESSIONAL EXPERIENCE

Full Stack Developer	 Cognizant, Pune	Jan 2025 – Present
-----------------------------	--------------------------	---------------------------

Roles & Responsibilities :

- Developed enterprise-grade web applications using C#, ASP.NET Core, Angular, and SQL Server.
- Designed responsive front-end modules using Angular, HTML5, CSS3, and TypeScript.
- Built scalable REST APIs for internal and client-facing systems.
- Implemented CRUD operations, authentication, and role-based access modules.
- Optimized SQL Server queries, stored procedures, and database performance.
- Integrated third-party APIs and internal business services.
- Performed debugging, issue resolution, and production support activities.
- Participated in Agile ceremonies including sprint planning, standups, and retrospectives.
- Collaborated with QA, UI/UX, and DevOps teams for smooth deployments.
- Maintained code quality using Git version control and peer reviews.

PROJECTS

Retail Sales & Inventory Management System | ASP.NET Core, Angular, SQL Server, REST APIs Aug 2025 – Present

Client: Global Retail Chain (USA)

Description : Developed an enterprise retail management platform to handle sales transactions, inventory tracking, billing, supplier management, and executive dashboards across multiple store locations.

Responsibilities:

- Designed scalable backend APIs for sales, products, billing, and inventory modules.
- Developed Angular dashboards for stock movement, sales trends, and KPI tracking.
- Created SQL Server procedures for high-volume transaction processing.
- Implemented real-time stock updates across multiple warehouses.
- Integrated barcode scanner and invoice generation modules.
- Improved system performance and reporting speed.
- Worked in Agile sprints with cross-functional teams.

Secure Banking Application | Java, Spring Boot, MySQL, React.js, JavaScript, Google Authenticator 2024

- Implemented multi-factor authentication (2FA) increasing account security by 99.7%.
- Optimized login processing time by 40% while supporting 1,000+ concurrent users.
- Applied AES-256-GCM encryption for 50,000+ sensitive records.
- Built JWT token rotation system with 15-minute expiration reducing session hijacking risks by 90%.
- Developed responsive frontend using React.js with seamless user authentication flow.

EXTRACURRICULAR

- University Cricket Team Member - Represented university in The Association of Indian Universities (AIU) West Zone Inter-University tournaments.
- Best Bowler Award Winner - State Tournament 2023, Goa.
